Standard Lime & Stone Quarry, MACHINE SHOP

HAER No. WV-49-0

HAER
WVA
19-MILLV,
10-

Location: Standard Lime & Stone Quarry, central portion of plant area, County Route 27, Millville, Jefferson County, West Virginia.

UTM: 18.4353640.260130
Quad: Charles Town, West Virginia

Significance: The Machine Shop is an intact surviving example of the type of large vernacular industrial shop structures used at the Standard Quarry.

Description: The 30- by 90-foot hollow tile Machine Shop is composed of a series of linearly arranged spaces, oriented north-south. A garage bay exists on the south end. Windows are typical multi-pane, steel industrial sash. A ventilation monitor, constructed of hollow tile, sits atop the ridge of the gable roof. The building rests on an elevated concrete pad, above the main service road which runs along the east side of the shop. There is a wood-frame lean-to addition on the west side of the building. The shop is in good condition.

History: The Standard Lime & Stone Company erected this shop c. 1930 for the maintenance of all types of machinery used in dolomite quarrying and processing at the Standard Quarry.
